

# EQUUS

LED Tree Spot 7w & 9w  
570 - 740 Lumens

### LED spotlight suitable for indoor and outdoor installations

The innovative award winning design allows the luminaire to be pivoted and rotated in any direction so that the light can be aimed more effectively to illuminate a garden landscape or highlight a feature.

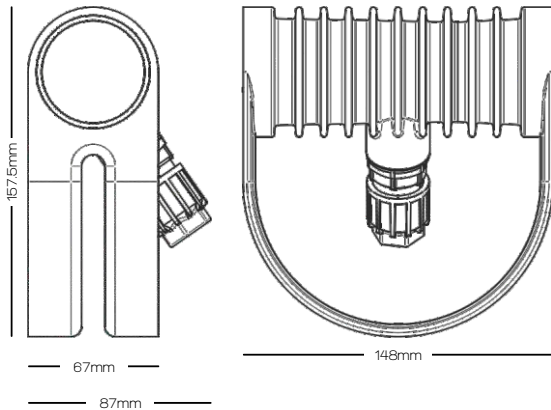

The housing body is made from single cast bronze or stainless steel providing optimum thermal management. Integrated IP67 LED driver. Mains cable termination is done via an IP68 external cable gland with integral terminal.
