

DALI RECEIVER

1 Channel Constant Voltage

DALI RECEIVER

1 Channel Constant Voltage

DIGILIN

DALI Receiver with 1 Channel PWM Output

The LDALI-PWM-1 is a DALI receiver with one channel of PWM driven output for controlling constant voltage LED systems.

The PWM output makes use of Digilin's special smoothed PWM transitions software making variations in light output almost imperceptible even at low levels.

It is an ideal solution for integrating white LED strips into a DALI lighting control system, providing full dimming control.

SPECIFICATIONS

Input Voltage	12VDC - 24VDC
Input Current	10A
Communications	DALI (IEC62386)
Output Voltage	1 Channel Low Side Constant Voltage PWM
Output Current	10A
Fuse	15A (Quick Blow)
Minimum Dimming Level	DALI Level 1 (0.1%)
IP Rating	IP20
Dimensions	120.6mm x 39mm x 32mm
Weight	65g
