Guide To 3-Side Emitting Mounting Options

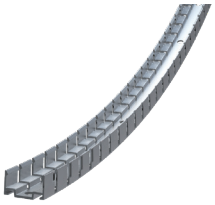

To compliment the HaloFlex 3-Side Emitting range of flexible, durable IP68 linear systems, a range of mounting options are available which provide mounting solutions for all installation types. The range includes flexible and rigid self-clinching profile as well as a mounting clips for challenging locations. Each mounting profile is designed to ensure secure installation of the 3-Side Emitting system on site.

Self-Clinching Aluminium Surface Mount (Rigid)

Self-Clinching - Surface Mount (Rigid)

This specially designed profile features a shallower structure and symmetrical internal protruding tracks, allowing it to seamlessly accommodate the contoured waist of the three-side-emitting product series. The unique self-clinching aluminium profile offers exceptional flexibility, providing endless possibilities for integrating 3-Side Emitting lighting into a range of applications.

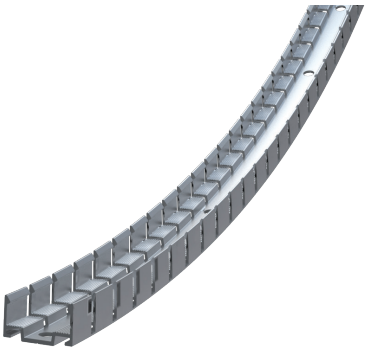

Product	Standard Length	Slotted Hole	Hole Number
HFL-MPF-SFC-SCL-0020	20mm	4mm x 10mm	1
HFL-MPF-SFC-SCL-1000	1000mm	4mm x 10mm	5
HFL-MPF-SFC-SCL-2000	2000mm	4mm x 10mm	10
